An exciting networking and pitch event that connects the drug development community and awards funds for groundbreaking repurposing research that can change clinical practice and improve patients’ lives!

Join hundreds of attendees and Cures Within Reach to select the next breakthrough medical treatment by sponsoring CureAccelerator Live! on November 15, 2017. Sponsorship of CureAccelerator Live! is a unique opportunity to support groundbreaking repurposing research and become a vital part in this process.

At this philanthropic networking/pitch event, researchers share their innovative repurposing plans to secure a grant to carry out their research and drug development company attendees and service providers connect. Your sponsorship will help fund life-changing research!

- **Attendees** listen to each group’s pitch over appetizers and refreshments, and learn more at interactive pitch stations.
- Leading sponsors will be invited to a **pre-event VIP reception**, providing a unique opportunity for approximately 30-50 start-up and young medical and bioscience companies, along with event sponsors, to mingle and network.
- **Innovative research** targets an unsolved disease, repurposes at least one human-approved medicine or medical device, has the potential to improve patient lives within 3-5 years, and costs less than $75,000.
- The event will **fund one or more repurposing projects** that can change clinical practice and improve patient lives.
- **Help grow repurposing** through awareness, community and actual clinical results, spearheaded by Cures Within Reach on a global level.

**Partner with Cures Within Reach:**

- CureAccelerator Live! provides a unique networking opportunity for researchers, clinicians, patient groups, biomedical, industry professional and other key stakeholders.
- Achieve broad marketing exposure, prominent visibility on print and social media, networking opportunities, and year-round executive and employee involvement.
