An Event Like No Other!
Each year, 25-50 players golf from dawn til dusk - sometimes as many as **100 holes**, each raising money toward repurposing research. In support of this amazing effort, we secure a private course, and provide our players with refreshments, carts, prizes and encouragement.

In 2018, funds raised will support metastatic thyroid cancer and/or other selected cancer repurposing research.

Together, LDOG players have created amazing impact through their fundraising - changing lives for patients with prostate cancer, pediatric brain cancer, autism, Alzheimer’s and pediatric autoimmune disease.

Prior to the event, registered players contribute or raise a minimum of $1,000, with many players raising $3-5K. On the day itself, players enjoy open play on the private course from dawn until dusk – or any part thereof.

Join other golfers as a single, or create your own foursome. Fore!!

The Story Behind the Cause
“After one of my best friends, Roger, was diagnosed with Hodgkins Lymphoma, I wanted to help him and others who suffer from unsolved diseases. Roger and I were high school golf teammates and college roommates. When we learned about the Longest Day of Golf, we knew this was the event for us. Over five years, we've raised money for some amazing causes while meeting some great friends. The Longest Day of Golf is one of my favorite days, and I look forward to supporting it for many years to come!”
